## EXPERIENCE

---

**Full-Stack Developer Intern**

**Internship at GoFlamingo business private limited** (August 2023 - Present)

- Python | Django | Rest Frame Work | HTML | CSS | Bootstrap | JavaScript
- During my internship, I underwent comprehensive training in full-stack development, covering technologies such as **HTML, CSS, JavaScript, Bootstrap, MySQL, Python, Django and Rest frame work**
- Internship achievements: Developed Snake and Ladder game (front-end skills) and Developed City Municipal Council Corporation (To raise complaint about Garbage collecting, Water Leakage and street light issues).
- In 40 days, I developed the **City Municipal Council Corporation seamlessly integrating full-stack technologies**. Recognized for high-quality work and meeting tight deadlines.

## EDUCATION

---

- **BE - 7.80 CGPA**  
KLE COLLEGE OF ENGINEERING CHIKKODI (2019-2022)

## TECHNICAL SKILLS

---

**Programming Languages :** Python | MY SQL | JavaScript

**Frameworks & Libraries :** HTML | CSS | Bootstrap | Django | MySQL | Django Rest Framework | API

**Version Control :** Git | GitHub | Jira Sprint Planning | Visual Studio Code | Bitbucket

**Testing :** Manual Testing

## PROJECTS

---

**City Municipal Council Corporation**

- Python | Django | JavaScript | HTML | CSS | Bootstrap
- To rise the online complaint registration related to **Garbage Collecting, Water Leakage and Street Light**.
- Proficient in **full-stack development** with **HTML, CSS, JavaScript, Bootstrap, MySQL, Python, and Django**; Recognized for timely project completion.

**Snake And Ladder**

- HTML | CSS | JavaScript | Bootstrap
- Designed and developed an engaging Snake and Ladder game using **HTML, CSS, JavaScript, and Bootstrap**.
- Implemented a visually appealing and **user-friendly interface** to enhance the gaming experience.
- Demonstrated proficiency in front-end web development, creating a creative and responsive game within design constraints.
- Received positive feedback for the project's creativity and functionality, showcasing adaptability and skills in **HTML, CSS, JavaScript, and Bootstrap**.

**WireFrames**

- Designed and implemented a responsive website wireframe and Restaurant Menu Card using HTML, CSS, and Bootstrap, showcasing a strong foundation in front-end development. Leveraged Bootstrap's grid system, components.

◦

**College Time Projects**

- Solar Pannel Installation.
- Foot Dust Cleaning Machine.
- Multi Floor Material Handling Using Swarm of Automated Robots.
